— MANUAL —

# ATTENTION! FIRST OF ALL, MAKE SURE TO READ THE WARNINGS!

"MMM is not a bank, has no central account, does not collect your MONEY; MMM is not an online business, an investment, or a sales program. It is neither a company nor an enterprise. There is no boss, no owner, no office space, no formal organization, no legal entity, no business, no investment or no other activities of any form. MMM is a community where people help each other. Here, people provide help free of charge, and are absolutely conscious to remit to each other directly, from one account to another, for direct currency exchange; all funds are circulated among participants; no intermediary or intermediate link can touch the money. Only millions of common participants remit for providing help through personal account. Only with goodwill, one person provides help to another person in need of help, absolutely free of charge. Today you help others, and tomorrow others will help you. Just no more!"

MMM system would match a community participant in need of help; you transfer to the participant by paying the help amount. Just in this way, you can finish the whole process of providing help. In your "User Center", you will get the reward of 100 Mavro and the reward would grow immediately! Your Mavro will grow at 1% per day, up to 30% monthly; just in a month, the initial 100 Mavro will grow into 130 Mavro. It is however possible for participant to make extra 20% with the 30% reward on their principal amount by simply getting involved in WEBTASK which is designed as means of promotion and growth of the system at large. The WebTask Bonus is received by the participant on each day of WebTask. It is accrued to 0.67% daily and close of it in total to 20% monthly. Reward of 30% on principal amount with withdrawable bonus on Webtask gives you 50% monthly without recommitment or any condition attached.

However, this does not need to wait a month; by the 28th day, you may apply for getting help from others; just by clicking "Get help" on the home page of MMM system, you would get financial assistance from other participants in the world. Just like you did, they transfer the money to you; just in this way, you turn your Mavro of MMM system into the fund needed for your daily life. The operation is simple and you will be clear just after one use. This model allows each participant to cast off the slaved money-making life!

## INNOVATIVE CHANGE ON WITHDRAWAL OF GUIDER BONUS & REFERRAL BONUS:

It is of note that the importance of participation in any system is of sustainability and based on the blueprint inherited from Sergie Mavrodi, we have this as means through which our system will be well sustainable as there will be all hands on deck for sustainability without undermining the hardwork of guiders and commitment of participants. Any system is successful system is key into through collective effort and flexible rules that guides it. As this in MMM Revolution(M3-revolution), every account is with limit to withdraw up to 2 times the PH done by the participant i.e. he can withdraw from that account only up to 200% at a go. Note that there is no Re Commitment system as participants are with liberty of participation.

Each account is with limit of 200% possible withdrawal at a go while the 200% will include the referral bonus, guider bonus and capital. For example : Biden is a participant in MMM Revolution and he makes PH of \$1000 while he referred people and has in total of \$3000 as bonus, he can make total withdrawal of \$2000 which include his bonus and capital at a go which means 200% of amount PH. The amount left is \$2000, immediately after Biden can make PH again of amount of \$1000 and at payment of Activation, he can again withdrawal another 200%. This indicates each account is set with 200% limit. Also example: PH \$100= GH \$200(including bonus) after you PH again \$100 =GH \$200.For every PH, you can GH 200% from the system out of which referral bonus is and guider bonus. After you are done with the 200% circle,you PH again and pay only 10% Activation and you get another 200%.

However, this should be noted that a participant without bonus can withdrawal 100% of the capital with reward of 30% and 20% reward of webbonus without any recommitment. But this does not mean that the participant's bonus or other things will be lost. The rules here are only that the participant whether he does only his own PH or develops the team with his own PH but can withdraw only up to 200% from one account which will include all types of bonus (referral or guide). This rule has been created so that this system can run more than all the systems so far and our last participant can benefit from it.

**WEB TASK BONUS:** Task Bonus has been an innovation that is also known as WEBTASK. This gives you extra 20% reward with the normal 30% of your PH at the rate of 0.67% per day without growth. We are starting promotional daily task for all members as this task would be simple ones that will only task few minutes of to be accomplished on social media and other means. Note that at the end of doing the daily task, each participant is entitled to 0.67% daily and that gives you 20% in 30days without growth, while adding that to the 30% reward on PH, you get 50% monthly. Note that the Task doesn't affect the normal 30% reward on every PH and the extra 10% is for every member that do promotional task everyday for the growth of their structure and the community at large.

**Testimonials Bonus :** Testimonial bonus gives you 2% testimonials bonus without video while you get 3% of the GH amount while a video is as testimony.
